and NSD File No. L-00-72.

Dear FCC:

As a low volume user myself I am very concerned about this price increase. I chose the service I use now in order to have a phone for important communications or emergencies, that I could afford. Prices on everything from food and clothes to gas and schooling are increasing as I write this. I'm am hoping this will not add to the hardship.
Thank You for your time.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
